Microsoft Certified: Azure Developer Associate

Sreelal H

Principal Architect | Engineering Manager | Mobile Solutions | AI, Analytics & Digital Transformation
Trivandrum, Kerala, India

Summary

Technical Lead / Mobile Architect with 16 years of experience in software engineering, specializing in iOS and mobile application development, technical architecture, and digital transformation. I have extensive hands-on experience building scalable mobile applications using Swift, SwiftUI, UIKit, Objective-C, React Native, and modern application architectures. My experience also includes Guidewire/Jutro Digital Platform, React-based applications, and Insurance domain solutions. My core strengths include technical architecture, solution design, estimation, technical leadership, mentoring, and delivering enterprise-grade applications. I have worked across the software development lifecycle, from architecture and POCs through development, integration, testing, and production delivery. I am also actively expanding my expertise in Artificial Intelligence, Machine Learning, Data Science, LLMs, and Generative AI, with a focus on applying these technologies to real-world products and engineering solutions.

Key Areas of Expertise

- iOS & Mobile Architecture — Swift, SwiftUI, UIKit, Objective-C
- Technical Leadership & Solution Architecture
- Guidewire / Jutro Digital Platform
- React Native, React, JavaScript, Angular
- Insurance & Digital Transformation
- MVVM, MVC, VIPER, Clean Swift and scalable architecture patterns
- Python, Data Science & Machine Learning
- Generative AI, LLMs and AI application development
- API integration, cloud technologies and enterprise application development

I enjoy solving complex engineering problems, exploring emerging technologies, and building scalable products that create meaningful business value. Let's connect and explore opportunities to collaborate on mobile, cloud, AI, and digital transformation initiatives.

Experience

EY

11 years 2 months

Principal Architect

August 2025 - Present (1 year 2 months)

Led the end-to-end architecture and development of enterprise and consumer mobile applications across banking, insurance, and healthcare domains using Swift, SwiftUI, and React Native.

Served as Principal Architect and Tech Lead on high-impact initiatives including digital wallets, native financial platforms, and AI-powered applications, ensuring solutions were scalable, secure, and performance-driven.

Partnered with global teams and clients across APAC and US, translating business requirements into user-centric, future-ready mobile architectures. Spearheaded the design of hybrid applications for insurance adjusters and surveyors, enabling seamless claim processing on the go.

Conducted technical reviews, architecture validations, and QA assessments, ensuring continuous alignment between technology and business goals.

Engineering Manager

August 2015 - Present (11 years 2 months)

Thiruvananthapuram, Kerala, India

Directed cross-functional engineering teams in delivering enterprise and consumer mobile applications, driving excellence through Agile practices (Scrum Master & SAFe), CI/CD pipeline setup, and DevOps automation.

Oversaw end-to-end development lifecycles, from requirement analysis to release, ensuring faster time-to-market and higher quality standards. Collaborated closely with business stakeholders to define roadmaps, prioritize features, and deliver iterative, high-value releases.

Enabled innovation by mentoring engineers, conducting technical reviews, and fostering a culture of continuous improvement. Delivered enterprise mobile solutions using Swift, SwiftUI, React Native, Cordova, and AngularJS, tailored to meet business needs in banking, insurance, and healthcare sectors.

Tata Consultancy Services

3 years

Assistant Consultant

March 2015 - August 2015 (6 months)

Cochin Area, India

As Tech Lead Managed end-to-end development lifecycle including requirement gathering, development, QA, and deployment.

Developed and supported client-facing mobile applications across multiple domains.

Introduced reusable design patterns to improve maintainability and scalability of app features.

Engaged in hybrid-platform mobile development and handled API integrations and UI optimization for iOS and Android

Mentored junior developers and promoted clean coding standards across the mobile team.

IT Analyst

September 2012 - March 2015 (2 years 7 months)

Cochin Area, India

Senior iOS application developer and technical lead

UST Global

Senior Software Engineer

March 2011 - October 2012 (1 year 8 months)

Thiruvananthapuram Area, India

Senior Mobile Application Developer and technical lead

RapidValue

Senior Software Engineer

June 2009 - October 2010 (1 year 5 months)

Cochin Area, India

iOS Application Developer and technical lead

KTS InfoTech

Software Engineer

January 2008 - June 2009 (1 year 6 months)

Developed web and desktop applications in .NET for local businesses and educational institutions.

Participated in the entire software lifecycle: design, coding, testing, deployment, and support.

Education

Marian Engineering College

Bachelor of Technology (B.Tech.), Information Technology · (2003 - 2007)
